

THE STOP PRESSURE ULCER DAY HELD ON NOVEMBER 18TH 2021

GREETINGS FROM THE UNIVERSITY HOSPITAL PILSEN

THE SYMBOL OF PILSEN IS NOT ONLY PILSNER BEER, BUT ALSO THE CATHEDRAL OF ST. BARTHOLOMEW, WHERE WE CLIMBED 299 STEPS, TO DRAW ATTENTION TO THE PROBLEM OF PRESSURE ULCERS EVEN FROM A HEIGHT :-)

We barely walked into the walkway!

We send our greetings to all those who deal with the prevention and treatment of pressure ulcers (bedsores).

Alerting the public to this problem requires an idea, so we go down again from the tower to the carousel. :-)

***Who's rotates,
has no bedsores!***

**THE REGULAR SYMPOSIUM ON NOVEMBER 11, 2021,
ORGANIZED BY THE WORKING GROUP FOR THE PREVENTION AND
TREATMENT OF PRESSURE ULCERS,
WAS ATTENDED BY 90 PARTICIPANTS.**

Greetings from the symposium dedicated to the innovations in the prevention and treatment of pressure ulcers in the time of the covid, under the respirator are hidden smiles of participants who managed and still manage this challenging period with all their might!

You can additionally view the program and spoken presentations on the portal www.postudiu.cz
