

STOP PRESSURE INJURY CAMPAIGN 2019

HONG KONG WEST CLUSTER, HOSPITAL AUTHORITY

“STOP Pressure Injury Day” is a world-wide campaign which is held in November every year in many countries. The aim is to increase the awareness of pressure injury prevention among the healthcare professional, care givers and the public. In this regard, the Hong Kong West Cluster Working Group on Pressure Injury Management had taken this opportunity to participate the campaign. The Working Group organized “The STOP Pressure Injury Week 2019” in Tung Wah Hospital, Grantham Hospital, the Sandy Bay Hospitals Group and Queen Mary Hospital from the 4th – 8th of November 2019. Multidisciplinary forum and interactive workshop (Nurse, Dietitian, Physiotherapist and Occupational Therapist) were organized. The frontline colleagues’ knowledge, skill and awareness of pressure injury prevention and management were further embraced. The feedback from the participants were very positive, they expressed the interactive workshop can fulfil their practical needs. In addition, the working group also joined the Central & Western District Health Festival to promote pressure injury prevention in the community in September 2019.

STOP Pressure Injury Day
世界預防壓力性損傷日
