**DIA
MUNDIAL**

Prevenção à Úlcera
por Pressão

Local: Auditório da
Ed. Continuada (CME)

Há 4 anos o Hospital São Luiz Gonzaga realiza o evento do Dia mundial de Prevenção à Úlcera por Pressão - STOP.

Trata-se de uma iniciativa da organização europeia European Pressure Ulcer Advisory Panel (EPUAP) que é dedicada à prevenção e ao tratamento das úlceras por pressão.

Nesse dia, países do mundo todo realizam estratégias com o objetivo de aumentar a conscientização para a prevenção das úlceras. O HSLG é oficialmente o único hospital do Brasil que realiza o evento.

Total de Participantes: 32

- Enfermeiro
- Auxiliar de Enfermagem
- Médico
- Nutricionista
- Biomédica

Palestrantes:

STOP PRESSURE ULCER DAY 2015

STOP Pressure Ulcer Day 2015 events:

Stop Pressure Ulcer Day at Austrian Pressure Ulcer Prevention Association (APUPA)

Al Mafraq Hospital, Abu Dhabi, UAE

Hospital Municipal São Luiz Gonzaga, São Paulo, Brazil

Welsh Wound Innovation Centre, Wales, UK

Solent NHS Trust, Portsmouth, UK supported World Wide Stop Pressure Ulcer Day with a table top display at their local Community Hospital Campus. This included Tissue Viability, Dietetics & Bowel & Bladder Service to give a holistic overview for patients, carers, families & staff to obtain information & advice

The Finnish Wound Care Society and its active members around Finland have promoted the Stop Pressure Ulcer Day during the whole autumn.

The Wound Expertise Center of Harderwijk (in The Netherlands) on Thursday 19 November pays attention to the prevention and treatment of pressure ulcers. Wound-experts visit this day the wards to inform on pressure ulcers and to share with colleagues. The aim is to raise awareness for prevention and the adverse consequences of pressure ulcers.
