

Fondazione Policlinico Tor Vergata in Rome, Italy, organizes awareness campaigns to educate healthcare professionals about these pressure ulcers.

Prevention and treatment of pressure ulcers are the goal of the wound care nurse

On the day of ulcer prevention, the foundation aims to review and implement best practices to reduce the occurrence of pressure ulcers, aligning with the recommendations of the European Pressure Ulcer Advisory Panel (EPUAP).

Tor Vergata University nursing students and master's students actively participated in the project sponsored by AISLeC Italian scientific society on the study of lesions.

SEE YOU NEX CAMPAIGN.....
