

Bradford District Care Foundation Trust **Specialist SPUD Conference 2025**

This year, Bradford District Care Foundation Trust supported Stop Pressure Ulcer Day with a specialist service conference, the aim being to share the key message that **‘Pressure Ulcer Prevention is Everyone’s Business’**.

The conference supported learning and education across various specialities and provide an opportunity to ensure we **‘make every contact count’** whilst working together to prevent pressure damage.

The conference was open to all Trust staff, residential and nursing homes, care agencies and staff from GP practices.

This is our packed agenda!!

Stop Pressure Ulcer
Day Specialist Service

We had learning zones covering:

- Categorisation, skin inspections/recognising early skin changes and offloading
- Falls
- Continence
- Palliative care
- Podiatry

Following an opportunity to have lunch, network and experience our huge exhibition area supported by our wonderful medical representatives, we delivered a short presentation and then those attending 'speed dated' around the learning zone.

We even packed in some falls exercises to get people moving!!

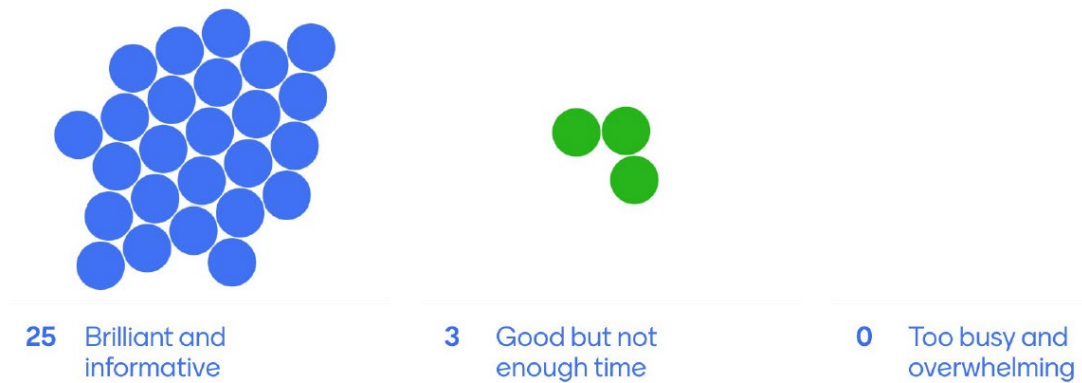

We can't thank enough the support we received from the following who took time to provide education and support for everyone:

- Hartmann UK & Ireland
- Smith & Nephew
- Advancis
- Parafricta
- Urgo Medical
- Medicare Plus
- Solventum
- Sigvaris
- L & R
- B Braun
- Richardson Health Care
- Day Long
- Juzo UK
- Medi UK
- Winnicare UK
- Abbot Nutrition

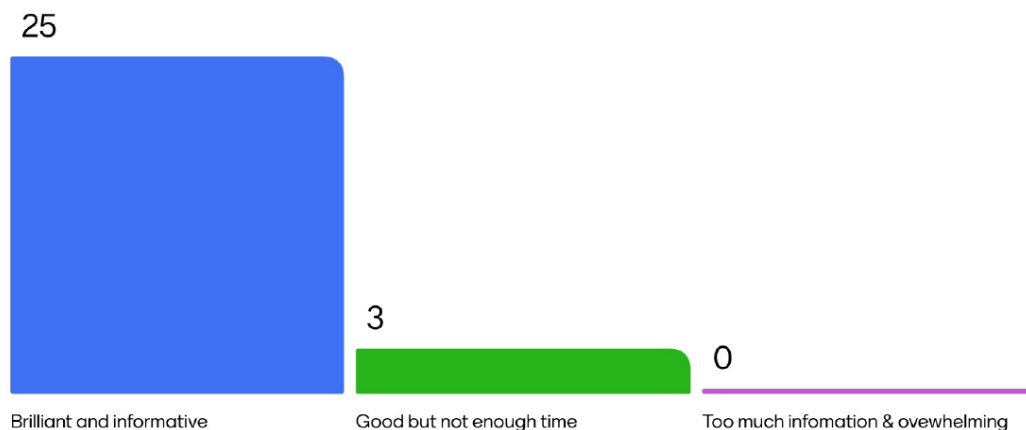

FEEDBACK AND MORE PICCYS

How helpful was the exhibition area?

How helpful were the learning zones?

What's been good about today?
