

# STOP Pressure Ulcer DAY

2025

## Aim

The Etablissements Hopstaliers du Nord Vaudois is a regional multi-sites hospital in french speaking part of Switzerland.

Since 2023 we've been implementing a global strategy to promote skin integrity and raise awareness regarding pressure ulcer, including the organization of a « stop pressure ulcer day event ».

## Exhibition booths

We organized exhibition booths with our sponsors, allowing professionals and population to see prevention and treatment products, but also institutionnal booths with EPUAP materials and our institutionnal procedures regarding skin integrity promotion.

## Industry booths

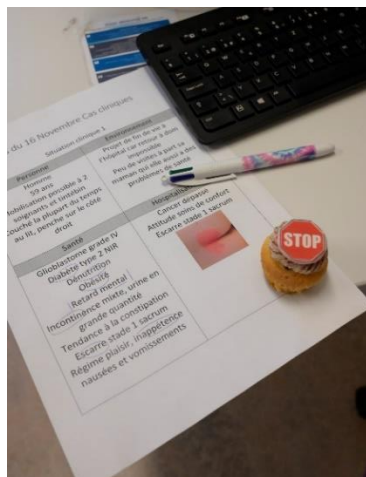

## Institutionnal Booths

- Patient and professional EPUAP algorithm
- Internal Pressure Ulcer Knowledge Assessment Tool rates
- Internal Pressure Ulcer rates
- QR code to answer a french translation of the Attitudes towards Pressure Ulcer Prevention

## Professional workshops

Specialized nurses and « local champions » animated workshops on pressure ulcer prevention.

## Public conference

We offered a public conference dedicated to professional and non professional participants :

- Presentation on skin integrity promotion and chronic wounds prevention
- Vidéo of an interview with a person living with a pressure ulcer for one year.
- Drinks and coffee to let professionals and population meet.

## Results

Our team met around 450 persons on through booths, workshops and the conference.

The video is on social media and will be on Youtube very soon.

The whole team is already organizing the next edition 🔄
