

Pressure Injury Prevention Day 2025

Prince Mohammed bin Abdulaziz Hospital – Riyadh Second Health Cluster

November 20, 2025

8:30 am – 03:00 pm

Main Lobby

The Prince Mohammed bin Abdulaziz Hospital successfully conducted **Pressure Injury Prevention Day 2025** on November 20, 2025, uniting various healthcare disciplines in a shared mission to enhance patient safety, promote awareness, and strengthen hospital-wide initiatives on pressure injury prevention and management.

The program opened with **Welcome Remarks** from **Mr. Jeffryl Pena**, followed by the **Crusade for Pressure Injury Prevention**, symbolizing the institution's continued dedication to advocacy in **Pressure Injury Prevention**. The **PI Committee Members** conducted **Unit and Patient Visits**, where they assessed ongoing practices, interacted with staff, and provided **education to patients and family members**. Topics covered included the nature of pressure injuries, risk factors, early detection, repositioning techniques, skin care, and overall preventive strategies. These discussions empowered families to actively participate in patient care. Photos taken during these visits were captured **with full family consent**, ensuring ethical and respectful documentation.

The event featured the **Poster Making Contest Presentation**, facilitated by **Ms. Ma. Theresa Mascardo** and **Ms Lesley Medina Pascual** with evaluations by esteemed judges: **Mr. Bernie Bitong (Patient Safety)** **Dr. Abdulkarem Alwesabi (Chairman of PI Committee)**, and **Mr. Abdulaziz Al Anezi (Nursing Supervisor)**. Each entry showcased innovation, creativity, and a clear commitment to pressure injury prevention.

The opening ceremony and ribbon cutting for the booth exhibit was led by **Mr. Fahad Al Dahfiri, Dr. Fatima Rebh Dr. Osama Al Amri** and **Dr. Abdulkarem Alwesabi**, featuring participation from Nursing- (Wound Care & Nursing Quality) Physiotherapy, Health Education, Home Health Care, and Respiratory Therapy. Each booth presented educational displays, demonstrations, and interactive learning tools focusing on pressure injury prevention and management.

In line with the growing trend in Saudi Arabia, where residents enjoy collecting tumblers, the event also offered a **specially designed red tumbler** featuring the **"Stop Pressure Injury" logo**. This giveaway served as a meaningful souvenir and a **daily reminder** to staff, patients, and visitors of the importance of pressure injury prevention.

Additionally, participants enjoyed the hospital's **annual themed photobooth**, designed with the **Stop Pressure Injury** concept. This creative feature not only added

engagement and excitement to the event but also reinforced the advocacy through memorable and visually impactful photographs.

At **2:00 pm**, the **Awarding and Recognition Ceremony** honoured the winners of the Poster Making Contest led by **Dr. Abdulkarem Alwesabi**.

Adding excitement to the occasion, a **raffle draw** was conducted for all attendees. Several prizes were given away, with the **grand prize being a 55-inch Smart TV**, which added enthusiasm and appreciation from participants.

The event concluded with **Closing Remarks** from **Dr. Abdulkarem Alwesabi** highlighting the value of continuous education, teamwork, and patient-centred care in minimizing pressure injury occurrences.

Overall, Pressure Injury Prevention Day 2025 was a successful and meaningful event, strengthening the hospital's commitment to quality care and reinforcing a culture of prevention, collaboration, and patient engagement.
